

GEOLOGIST

- You are a qualified geologist working **for Tarmac**.
- You should know all about rocks and aggregates and how they are extracted.
- You are responsible for providing a report for the Project Manager, on the geology of **Eastrop Farm** and how much aggregates can be extracted.

To help you:

- Watch the video
- Use Student Information Sheet section 1 on Aggregate Extraction
- Read 4.1 Geology and Geotechnics Statement (Page 5) and Appendix 2 - **Eastrop Farm** the Geologist Report (Page 10) in the Draft Planning Application.
- Use Map 4
