

## LANDSCAPE ARCHITECT

- You are a qualified Landscape Architect working for **Tarmac**.
- You are responsible for providing a report to the Project Manager which takes an overview of the whole process - you should describe the landscape before, during and after the extraction.
- You are responsible for the restoration plans. You may have an assistant working for you.

### To Help you:

- Watch the video
- Read 4.2 Landscape Appraisal Report (Page 6) and Appendix 3 - Report from Landscape Architect (Page 12) in the Draft Planning Application
- Look at all the Maps and Student Information Sheet
